Customer Churn Rate by Contract Type

● Total Customers ● Churn Rate

Month-to-month contracts show the highest churn rate, indicating customers without long-term commitments are more likely to leave.

Customer Churn Rate by Tenure

● Total Customers ● Churn Rate

Customers with less than 12 months tenure churn significantly more, highlighting a critical early-stage retention problem.

Customer Churn Rate by Payment Method

● Total Customers ● Churn Rate

Customers using electronic check have the highest churn rate, suggesting potential issues with payment experience or customer profile.

Customer Churn Rate by Internet Service

● Total Customers ● Churn Rate

Fiber optic customers show higher churn compared to DSL, likely due to higher pricing or service expectations.
